4.12.2 Rule

It is a **permitted activity** to:

- (1) undertake minor trimming and maintenance of significant trees by hand-operated pruning shears or secateurs in accordance with accepted aboricultural practice.
- (2) undertake emergency works on any significant tree to safeguard life or property, provided that written advice is given to the Gore District Council within one week of the works being undertaken.

4.12.3 Rule

Any removal or modification of any significant tree, or pruning, trimming or any other modification or activity within the canopy spread of any significant tree, not provided for by Rule 4.12.2 is a **discretionary activity**.

4.12.4 Information to accompany resource consent applications

In addition to all matters referred to in Section 1.3 in this District Plan, an application for a resource consent under this section shall contain:

- (1) Reasons for the proposed works and alternatives methods that could be adopted.
- (2) The health and quality of the tree and the effect that the proposed works will have on the tree.
- (3) An assessment of the values of the tree and the manner in which those values will be modified.
- (4) Impacts on the amenities of the locality.
- (5) A record of consultation undertaken with the Gore District Council Manager Parks and Reserves.
- (6) A description of the measures proposed to be taken to avoid, remedy or mitigate any adverse effects on the tree.
