

Gore District Council
Gore Ward
Electing 5 Councillors

Bronwyn REID

My principal place of residence is in the Gore Ward area.

Having had the pleasure of serving the people of Gore in my first term on council I have experienced first-hand how crucial good governance and leadership are to a successful council. I have proven my ability to bring effective, positive contributions on behalf of ratepayers to the table, laying the foundations for a productive second term.

Proudly raised in Mataura and living in Gore for 48 years, currently as Science Technician at Gore High School. I have a deep history and involvement with the Gore community making me a strong advocate for our district and the benefits of living here.

With many ratepayers on low or fixed incomes prudent spending is essential to achieving critical results within financial boundaries, such as upgrades to water treatment and stormwater separation.

Honesty, integrity and hard work are values I hold in life and that I will uphold, if elected for a further term.
