

Gore and Districts Health Inc
Gore Ward
Electing 4 Members

Alison MCLEARY MOORE

My principal place of residence is in the Gore Ward area.

The importance of good local health facilities delivering the best possible care cannot be taken for granted.

It remains important that we ensure that the assets we have are well maintained and continue to be developed to meet the changing health needs our rural community faces.

I believe it is important to retain and grow what we have.

I have served on Gore Health Inc for the past three years and would appreciate the opportunity to continue; to this end I ask for your vote in the upcoming elections for a further term with Gore and Districts Health Incorporated Society.
