

## **REPORT OF THE ROADING MANAGER NOVEMBER 2008**

### **General**

Programmed activities proceeded as per normal but as with the October weather again interrupted spraying and mowing operations.

Pre-reseal repair works continued to be the focus with two construction crews, an asphalt crew, a sealing crew, and a stabilisation crew all in operation in various parts of the district. This focus will be maintained until completion of the pre-reseal repairs.

### **Completed Maintenance Works - November**

- Routine cyclic rural and urban maintenance.
- 79km of gravel roads were graded.
- 126 m<sup>3</sup> of maintenance metal was applied.
- Unsealed shoulder dressing and metalling was undertaken on various roads.
- Concrete footpath and kerbing pre-reseal repair works continued in Ardwick, Ontario, Koa, Robertson, and Norton Streets.

### **Programmed Maintenance Works - December**

- Routine cyclic rural, urban and reserves inspections and maintenance.
- Continue pre-reseal repairs.

Murray Hasler  
**ROADING MANAGER**
